New and Renewable Energy & Power
Government of India

MESSAGE

Date: 25.07.2025

It gives me immense pleasure to extend my warm greetings and best wishes to the organizers, participants, and international delegates of the 6th Global Sustainability Summit & Expo, being held on 18th-19th Sep 2025 at Vigyan Bhawan, New Delhi.

The theme of this year's summit - encompassing Plastic Pollution, Recycling, Packaging and Waste-to-Wealth, Renewable and Sustainable Energy, and E-Waste Recycling, Lithium Batteries & Electric Vehicles - is not only timely but also critically aligned with India's vision for a greener, self-reliant, and circular economy.

With participation from over 12 countries, this global platform reflects India's growing leadership in sustainable development, clean technologies, and responsible industrial innovation. The summit brings together thought leaders, policymakers, innovators, researchers, and entrepreneurs who are committed to building a future that is environmentally sound, economically viable, and socially inclusive.

India has made significant strides in promoting Extended Producer Responsibility (EPR), boosting clean energy adoption, and encouraging startups and industries to move toward sustainable business models. Forums like this play a vital role in forging collaborations, sharing best practices, and accelerating the transition to a low-carbon and resource-efficient future.

I commend the MSME Chamber of Commerce and Industry of India (MSMECCII) for organizing this ambitious and impactful summit. I am confident that the deliberations and knowledge shared during these two days will lead to actionable outcomes, policy insights, and business opportunities that benefit both India and the global community.

I extend my best wishes for the grand success of the summit and to all those contributing to a more sustainable and resilient world.

(Shripad Naik)
